PREPARE

PREPARE

The first phase in the disciple-making process is to **PREPARE** the soil of the heart.

When we come close to people in friendship and service, we show that we care and gain their confidence.

Ministering to people's practical needs with kindness and compassion prepares their hearts to receive the truth of the gospel.

PLANT

PLANT

After preparing the soil with friendship and service, the next phase of the disciple-making process — PLANT — is to invite people to consider spiritual truth.

This can be accomplished by sharing literature or media, by offering Bible studies, or by inviting people to church services and events.

CULTIVATE

CULTIVATE

After planting the seed of God's Word, the next phase in the disciple-making process is to **CULTIVATE** the growing spiritual interest.

This is one of the longest and most labour-intensive parts of the disciple-making process.

It is best accomplished by engaging in full-message Bible studies while providing friendship, guidance, and spiritual support.

HARVEST

HARVEST

After cultivating interests with Bible studies, it is time to reap a **HARVEST** of spiritual decisions that culminate in baptism.

Make appeals to those studying Bible truth, urging them to follow Christ and the light revealed to them. While this can and should be done in personal settings, one of the most proven means of gaining decisions has also been public evangelistic meetings.

PRESERVE

PRESERVE

After the joy of the harvest, we must **PRESERVE** the harvest through nurture and training after baptism.

For the disciple-making process to result in multiplication, we must teach newly baptised church members how to labour for souls.

The consumer must become a producer. The one caught by the gospel net must become a fisher of men.
